SUMMARY

Dedicated BCA student with hands-on experience in full-stack web development and AI-based application integration. Proficient in React, Node.js, JavaScript, C language and DSA (in JavaScript). Passionate about building scalable, user-friendly software solutions with clean code and efficient logic. Seeking an opportunity to contribute as a Software Developer / Full Stack Developer while enhancing technical expertise and solving real-world problems.

EDUCATION

Bachelor of Computer Applications (BCA)

Gujarat University, Ahmedabad, Gujarat

Relevant Subjects: Web Development, Database Management System, Data Structures, Software Engineering, Artificial Intelligence Fundamentals

Expected Graduation: 2026

EXPERIENCE

Full Stack Development Practice / Academic Projects **[Duration]**

- Built multiple web applications using React, Node.js, Express.js, and MongoDB.
- Developed REST APIs and connected frontend applications with backend services.
- Used Git and GitHub for version control and project management.
- Applied debugging, testing, and deployment practices.

PROJECTS

- **AI Integration in Web Applications** | Developed web applications with AI-powered features to improve automation and user experience. Integrated AI services and APIs to add intelligent functionality.
- **AI Food Delivery System** | Created a food delivery application with AI features for improving user interaction and application efficiency. Developed frontend and backend components using modern web technologies and integrated APIs for smooth data communication.
- **AI PDF Manager** | Built an AI-powered PDF management application for handling and analyzing documents. Implemented intelligent document processing features with a simple and user-friendly interface.
- **News Update Application** | Developed a news application using API integration for displaying updated news content. Created responsive interfaces using React and improved navigation for better usability.
- **i-Notebook Application** | Developed a note management application for creating, editing, and storing personal notes. Implemented frontend using React and backend using Node.js with database integration.

TECHNICAL SKILLS

Proficient in HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, Mongoose, REST API development, responsive web design, UI/UX development, Git, GitHub, API integration, AI-powered web applications, C language, and Data Structures & Algorithms (in JavaScript).

TOOLS

Experienced with Visual Studio Code, Postman, MongoDB Compass, npm, React Developer Tools, Browser Developer Tools, and other AI development tools. Also familiar with Git & GitHub for source control and collaboration.

CERTIFICATIONS

Full Stack Web Development Course – CodeWithHarry | React.js Development Course – CodeWithHarry

Node.js & Express.js Course – CodeWithHarry | AI Fundamentals / AI Tools Course – CodeWithHarry

ADDITIONAL INFORMATION

</> **C Language:** Strong understanding of C programming concepts and problem solving.

📈 **DSA in JavaScript:** Solving problems on arrays, strings, recursion, stack, queue, linked list, trees, graphs, sorting and searching.
